

#42

PATENTIN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Patentee: Warrior Lacrosse, Inc.

Patent No: RE38,216 E

Serial No: 09/174,804

Issued: August 12, 2003

Primary Examiner: Paul T. Sewell

Filed: October 19, 1998

For: SCOOPED LACROSSE HEAD

Attorney Docket No.: WLI 1004 R

I hereby certify that this correspondence is being deposited with the United States Postal Service as first-class mail in an envelope addressed to: Attn: Certificate of Corrections Branch, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on:

August 26, 2003  
Date of Deposit

PETITION FOR CERTIFICATE OF CORRECTION

Attn: Certificate of Corrections Branch  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

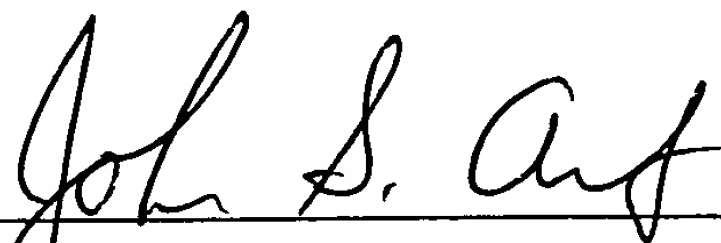

Patentee hereby petitions under the provisions of 35 U.S.C. Section 254 and 37 CFR Section 1.322(a) for a certificate to correct the errors set forth on the enclosed Certificate of Correction form.

FFR 09 2006

If the Examiner has any further questions relating to this Application, Patentee's attorney may be reached at (248) 223-9500.

Respectfully submitted,

**ARTZ & ARTZ, P.C.**

A handwritten signature in cursive script, reading "John S. Artz", is written over a horizontal line.

## UNITED STATES PATENT AND TRADEMARK OFFICE CERTIFICATE OF CORRECTION

PATENT NO. : US RE38,216 E  
DATED : August 12, 2003  
INVENTOR(S) : David Morrow and Philip Naumburg

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Please replace claim 1, column 5, lines 27-44, to read as follows:

1. A lacrosse head that comprises:  
an open frame having a base with a concave interior surface defining a ball rest, a pair of sidewalls diverging from said base and a lip interconnecting said sidewalls remotely of said base;  
means carried by said frame for securing a lacrosse net along a back side of said frame, leaving an opposing front side of said frame open for receiving lacrosse balls, and  
means exteriorly projecting from said base for attachment of a handle so as to define a handle/head axis, said front side of said frame at said base adjacent to said attachment means defining a plane parallel to said axis,  
both said front said and said back side of said sidewalls curving away from said plane and then back toward said plane from said base toward said lip so as to impart a curved scoop-like geometry to said head when viewed in side elevation.

Please replace claim 2, column 5, lines 45-48, to read as follows:

2. The head set forth in claim 1 wherein both said front side and said back side of said sidewalls have a maximum spacing from said plane at about the midpoint of said sidewalls between said base and said lip.

Please replace claim 3, column 5, lines 49-52, to read as follows:

3. The head set forth in claim 2 wherein said front side and said back side of said sidewalls each curve at substantially constant radius throughout at least one-half of their lengths between said base and said lip.

## UNITED STATES PATENT AND TRADEMARK OFFICE CERTIFICATE OF CORRECTION

PATENT NO. : US RE38,216 E  
DATED : August 12, 2003  
INVENTOR(S) : David Morrow and Philip Naumburg

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Please replace claim 4, column 5, lines 53-57, to read as follows:

4. The head set forth in claim 3 wherein curvature of said sidewalls and length of said sidewalls are such that said back sides of said sidewalls return at said lip to a spacing from said plane equal to or less than spacing of said back sides from said plane adjacent to said base.

Please replace claim 7, column 5, lines 63-66, to read as follows:

7. The head set forth in claim 3 wherein said sidewalls are of uniform thickness between said front and back sides thereof for at least about one-half of the overall length of said sidewalls.

Please replace claim 8, column 5, lines 67-70, to read as follows:

8. The head as set forth in claim 7 wherein said sidewalls are of uniform thickness between said front and back sides for about three-quarters of the overall length of said sidewalls.

Please replace claim 23, column 6, lines 39-43, to read as follows:

23. The head set forth in claim 1 wherein said handle-attachment means comprises a hollow socket projecting from said base for receiving the handle and strengthening ribs integral with said frame extending from said sidewalls to an end of said socket remote from said base.

## UNITED STATES PATENT AND TRADEMARK OFFICE CERTIFICATE OF CORRECTION

PATENT NO. : US RE38,216 E  
DATED : August 12, 2003  
INVENTOR(S) : David Morrow and Philip Naumburg

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Please replace claim 24, column 6, lines 44-47, to read as follows:

24. The head set forth in claim 1 wherein said sidewalls are interiorly convex for about one-half of their lengths adjacent to said base and interiorly concave for about one-half of their lengths adjacent to said lip.

Please replace claim 25, column 6, lines 48-66, to read as follows:

25. A lacrosse head that comprises:  
an open frame having a base with a concave interior surface defusing a ball rest, a pair of sidewalls diverging from said base and a lip interconnecting said sidewalls remotely of said base;  
means carried by said frame for securing a lacrosse net along a back side of said frame, leaving the front side of said frame open for receiving a lacrosse ball, and  
means exteriorly projecting from said base for attachment of a handle so as to define a handle/head axis, said lip having an exterior surface remote from said base that defines a ground contact plane at an angle of at least 40° to said axis, said front side of said frame at said base adjacent to said attachment means defining a plane parallel to said axis, both said front side and said back side of said sidewalls curving away from said plane and then back toward said plane from said base toward said lip so as to impart a curved scoop-like geometry to said head when viewed in side elevation.

UNITED STATES PATENT AND TRADEMARK OFFICE  
**CERTIFICATE OF CORRECTION**

PATENT NO. : RE 38,216 E  
APPLICATION NO. : 09/174804  
DATED : August 12, 2003  
INVENTOR(S) : David Morrow and Philip Naumburg

Page 2 of 3

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Please replace claim 7, column 5, lines 63-66, to read as follows:

7. The head set forth in claim 3 wherein said sidewalls are of uniform thickness between said front and back sides thereof for at least about one-half of the overall length of said sidewalls.

Please replace claim 8, column 5, lines 67-70, to read as follows:

8. The head as set forth in claim 7 wherein said sidewalls are of uniform thickness between said front and back sides for about three-quarters of the overall length of said sidewalls.

Please replace claim 23, column 6, lines 39-43, to read as follows:

23. The head set forth in claim 1 wherein said handle-attachment means comprises a hollow socket projecting from said base for receiving the handle and strengthening ribs integral with said frame extending from said sidewalls to an end of said socket remote from said base.

Please replace claim 24, column 6, lines 44-47, to read as follows:

24. The head set forth in claim 1 wherein said sidewalls are interiorly convex for about one-half of their lengths adjacent to said base and interiorly concave for about one-half of their lengths adjacent to said lip.
